"Which hospital would you give £5m extra funding to, and which one would you close? Why?" Answers will vary. For this activity students could imagine that they held a cabinet position in government, and had to decide the fates of two of these hospitals. Ensure that they produce good reasons for their choices – why they would give funding to one particular hospital, but not the others, and why they would close one particular hospital, but not the others. For example: "I would give £5m extra funding to King's Royal Infirmary, because I want them to continue their important work teaching medical students." And... "I would close St. Cuthbert's Green, because you have to wait a long time to have an operation, and the ambulance response time is too long." Or... "Because it has the fewest staff..." Or... "I wouldn't close King's Royal Infirmary because it's a fairly new hospital." [etc.]
